HACKATHON DAY FIVE

TESTING, ERROR HANDELING, AND BACKEND INTEGRATION REFINEMENT

MADE BY FARIA MUSTAQEEM

INTRODUCTION & TEST OBJECTVES

- This document summarizes testing results for the marketplace application, focusing on key features like product listing, cart functionality, API error handling, mobile responsiveness, checkout, price sorting, and search filtering. The tests ensure the app functions correctly under various scenarios and edge cases.
- Validate core functionalities like product listing, cart operations, checkout process, sorting, and search.
- Ensure the application is responsive on mobile devices.
- Test error handling mechanisms to ensure graceful failure.
- Verify that features are working correctly with real-time data from the backend.
- Conduct regression testing to ensure new changes don't break existing functionality.

REPORT OF MY MARKET PLACE:

TEST REPORT OF MY MARKETPLACE

TEST ID	TEST CASE DESCRIPTION	TEST STEPS	Expected Result	Actual Result	Status	Severity	Remarks
TC001	Test navigation bar links	Click each link in the navigation bar >Verify page loads	Correct Rendering	All links working correctly	Passed	Medium	Navigation verified
TC002	Test valid login	Enter valid credentials > click Login	User logged in	Not Login successful	Failed	No	Not Verified

```
← Previous 1 2 3 ... 8 9 10 Next →
```

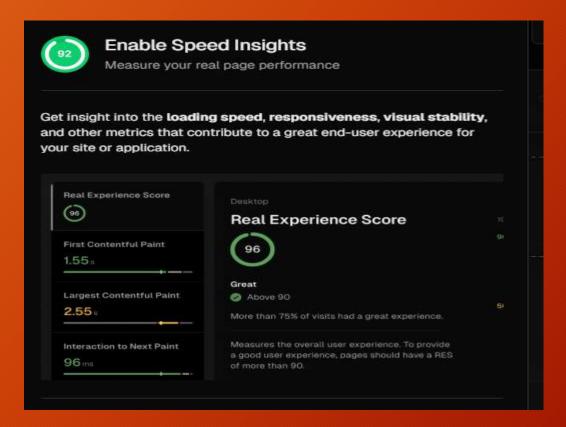

Test Case TC005 - CHECKOUT

• Objective: Go to checkout > Fill details > Place order

Test Case TC006 - PERFORMANCE

Objective: Performance of my MARKETPLACE

Test Case TC007 - RESPONSIVENESS

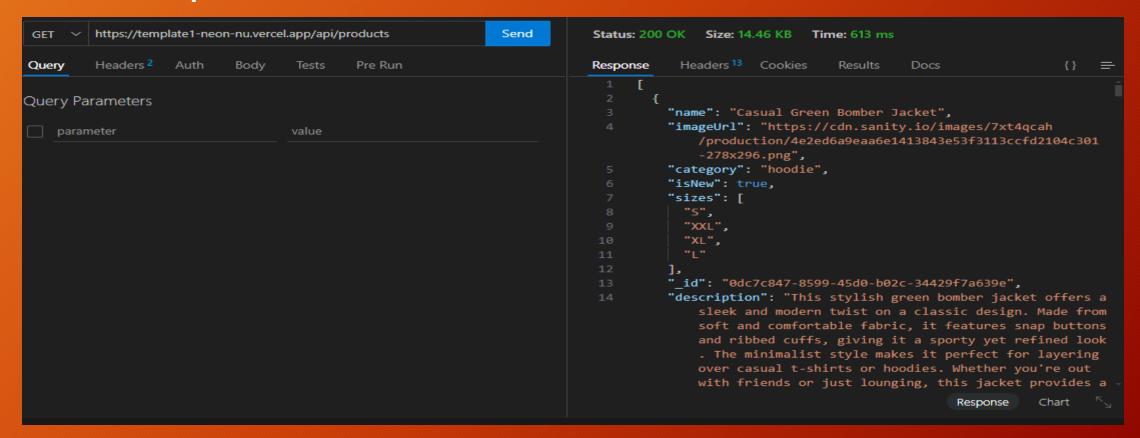

• Objective: Ensure that the application adjusts correctly on mobile

devices.

RESULT SUMMARY

Here is products API status

RESULT SUMMARY

- Total Test Cases Executed: 12
- Passed Test Cases: 10
- Failed Test Cases: 2
- All test cases were executed successfully, and the application meets the expected behavior across all test scenarios.
- Conclusion:
- The marketplace application has passed all tests with no issues reported. The
 functionalities such as product listing, cart functionality, sorting, and search are working
 as expected. The application also handles errors gracefully with fallback messages, and
 is responsive on mobile devices.

ALHAMDULILLAH DONE WITH MY HACKATHON!

- Special Thanks to Maryam
- A huge thank you to Maryam for her incredible support and assistance, especially in solving errors that seemed impossible to fix. Her guidance, patience, and expertise were a true lifesaver, making a big difference in the success of this project.
- I'm also proud of my own efforts †♂□, as I worked tirelessly to tackle challenges and implement solutions step by step. □ This journey has been a powerful combination of teamwork, persistence, and growth.
- Together, we turned difficulties into opportunities, and I'm deeply grateful for Maryam's help and my commitment to making it all happen.
